AND WALK-THROUGH. Except as otherwise provided in this Contract, the Property, Inclusions or both will be delivered in the condition existing as of the date of this Contract, ordinary wear and tear excepted.

- 19.1. Causes of Loss, Insurance. In the event the Property or Inclusions are damaged by fire, other perils or causes of loss prior to Closing (Property Damage) in an amount of not more than ten percent of the total Purchase Price and if the repair of the damage will be paid by insurance (other than the deductible to be paid by Seller), then Seller, upon receipt of the insurance proceeds, will use Seller's reasonable efforts to repair the Property before Closing Date. Buyer has the Right to Terminate under § 25.1, on or before Closing Date, if the Property is not repaired before Closing Date, or if the damage exceeds such sum. Should Buyer elect to carry out this Contract despite such Property Damage, Buyer is entitled to a credit at Closing for all insurance proceeds that were received by Seller (but not the Association, if any) resulting from damage to the Property and Inclusions, plus the amount of any deductible provided for in the insurance policy. This credit may not exceed the Purchase Price. In the event Seller has not received the insurance proceeds prior to Closing, the parties may agree to extend the Closing Date to have the Property repaired prior to Closing or, at the option of Buyer, (1) Seller must assign to Buyer the right to the proceeds at Closing, if acceptable to Seller's insurance company and Buyer's lender; or (2) the parties may enter into a written agreement prepared by the parties or their attorney requiring the Seller to escrow at Closing from Seller's sale proceeds the amount Seller has received and will receive due to such damage, not exceeding the total Purchase Price, plus the amount of any deductible that applies to the insurance claim.
- 19.2. Damage, Inclusions and Services. Should any Inclusion or service (including utilities and communication services), system, component or fixture of the Property (collectively Service) (e.g., heating or plumbing), fail or be damaged between the date of this Contract and Closing or possession, whichever is earlier, then Seller is liable for the repair or replacement of such Inclusion or Service with a unit of similar size, age and quality, or an equivalent credit, but only to the extent that the maintenance or replacement of such Inclusion or Service is not the responsibility of the Association, if any, less any insurance proceeds received by Buyer covering such repair or replacement. If the failed or damaged Inclusion or Service is not repaired or replaced on or before Closing or possession, whichever is earlier, Buyer has the Right to Terminate under § 25.1, on or before Closing Date, or, at the option of Buyer, Buyer is entitled to a credit at Closing for the repair or replacement of such Inclusion or Service. Such credit must not exceed the Purchase Price. If Buyer receives such a credit, Seller's right for any claim against the Association, if any, will survive Closing.
- 19.3. Condemnation. In the event Seller receives actual notice prior to Closing that a pending condemnation action may result in a taking of all or part of the Property or Inclusions, Seller must promptly notify Buyer, in writing, of such condemnation action. Buyer has the Right to Terminate under § 25.1, on or before Closing Date, based on such condemnation action, in Buyer's sole subjective discretion. Should Buyer elect to consummate this Contract despite such diminution of value to the Property and Inclusions, Buyer is entitled to a credit at Closing for all condemnation proceeds awarded to Seller for the diminution in the value of the Property or Inclusions but such credit will not include relocation benefits or expenses, or exceed the Purchase Price.
- **19.4. Walk-Through and Verification of Condition.** Buyer, upon reasonable notice, has the right to walk through the Property prior to Closing to verify that the physical condition of the Property and Inclusions complies with this Contract.
 - 19.5. Home Warranty. [Intentionally Deleted]

	proceeding between Buyer and Seller; (2) interplead all parties and deposit Earnest Money into a court of
	competent jurisdiction (Earnest Money Holder is entitled to recover court costs and reasonable attorney and
	legal fees incurred with such action); or (3) provide notice to Buyer and Seller that unless Earnest Money
	Holder receives a copy of the Summons and Complaint or Claim (between Buyer and Seller) containing the case number of the lawsuit (Lawsuit) within one hundred twenty days of Earnest Money Holder's notice to the
	parties, Earnest Money Holder is authorized to return the Earnest Money to Buyer. In the event Earnest Money
	Holder does receive a copy of the Lawsuit and has not interpled the monies at the time of any Order, Earnest

AND WALK-THROUGH. Except as otherwise provided in this Contract, the Property, Inclusions or both will be delivered in the condition existing as of the date of this Contract, ordinary wear and tear excepted.

- 19.1. Causes of Loss, Insurance. In the event the Property or Inclusions are damaged by fire, other perils or causes of loss prior to Closing (Property Damage) in an amount of not more than ten percent of the total Purchase Price and if the repair of the damage will be paid by insurance (other than the deductible to be paid by Seller), then Seller, upon receipt of the insurance proceeds, will use Seller's reasonable efforts to repair the Property before Closing Date. Buyer has the Right to Terminate under § 25.1, on or before Closing Date, if the Property is not repaired before Closing Date, or if the damage exceeds such sum. Should Buyer elect to carry out this Contract despite such Property Damage, Buyer is entitled to a credit at Closing for all insurance proceeds that were received by Seller (but not the Association, if any) resulting from damage to the Property and Inclusions, plus the amount of any deductible provided for in the insurance policy. This credit may not exceed the Purchase Price. In the event Seller has not received the insurance proceeds prior to Closing, the parties may agree to extend the Closing Date to have the Property repaired prior to Closing or, at the option of Buyer, (1) Seller must assign to Buyer the right to the proceeds at Closing, if acceptable to Seller's insurance company and Buyer's lender; or (2) the parties may enter into a written agreement prepared by the parties or their attorney requiring the Seller to escrow at Closing from Seller's sale proceeds the amount Seller has received and will receive due to such damage, not exceeding the total Purchase Price, plus the amount of any deductible that applies to the insurance claim.

If the failed or damaged Inclusion or Service is not repaired or replaced on or before Closing or possession, whichever is earlier, Buyer has the Right to Terminate under § 25.1, on or before Closing Date, or, at the option of Buyer, Buyer is entitled to a credit at Closing for the repair or replacement of such Inclusion or Service. In the event Earnest Money Holder does receive a copy of the Lawsuit and has not interpled the monies at the time of any Order, Earnest Money Holder must disburse the Earnest Money pursuant to the Order of the Court. The parties reaffirm the obligation of § 23 (Mediation). This Section will survive cancellation or termination of this Contract.

Dear Board of Directors;

I am working with Yvonne at this time to refinance our Bonds and loans that are on our water and sewer plants. We are also looking at asking for additional money for up grading our systems in all 3 of the facilities. It is a rough number but an additional amount of \$900,000 will give us an opportunity to get out of the daily developments that are plaguing the systems. I have compiled a list of major needs in the next month or two;

- 1. Filters for the Water plant are over their useful life by 3 years the cost to replace will be around \$130,000.
- 2. Water meters everyone knows what shape we are in there an estimated cost for that project will be \$550,000.
- 3. We are in need of replacement of Fire plugs and infrastructure valves and PRV upgrades \$100,000.
- 4. Cold Springs needs some parts and pieces to get both skids running only using one now and a motor for main water plant in wet well at a cost of \$80,000.

We have been making an effort to get back to a system that is easy to manage and maintain, but with the neglect that has happened over the past years. With not putting money back into plants and fixing the root of the problem it continues to be only a bandage to keep in operation.

We are looking at all angles to get the best rates though Advisors, Banks, and USDA. I am writing this to keep you in touch with what the district is in need of this year. There will be times in the coming months that we will need to hire engineering firms to do preliminary reports to show the needs that we desperately need. So next year we can get grant money and loan forgiveness.

Thanks,

James P Eccher

COLORADO CITY MD 2019 Drinking Water Quality Report For Calendar Year 2018

Public Water System ID: CO0151200

Esta es información importante. Si no la pueden leer, necesitan que alguien se la traduzca.

We are pleased to present to you this year's water quality report. Our constant goal is to provide you with a safe and dependable supply of drinking water. Please contact JAMES ECCHER at 719-569-5816 with any questions or for public participation opportunities that may affect water quality.

General Information

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (1-800-426-4791) or by visiting http://water.epa.gov/drink/contaminants.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV-AIDS or other immune system disorders, some elderly, and infants can be particularly at risk of infections. These people should seek advice about drinking water from their health care providers. For more information about contaminants and potential health effects, or to receive a copy of the U.S. Environmental Protection Agency (EPA) and the U.S. Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and microbiological contaminants call the EPA Safe Drinking Water Hotline at (1-800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- •Microbial contaminants: viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- •Inorganic contaminants: salts and metals, which can be naturallyoccurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- •Pesticides and herbicides: may come from a variety of sources, such as agriculture, urban storm water runoff, and residential uses.
- •Radioactive contaminants: can be naturally occurring or be the result of oil and gas production and mining activities.
- •Organic chemical contaminants: including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production, and also may come from gas stations, urban storm water runoff, and septic systems.

In order to ensure that tap water is safe to drink, the Colorado Department of Public Health and Environment prescribes regulations limiting the amount of certain contaminants in water provided by public water systems. The Food and Drug Administration regulations establish limits for contaminants in bottled water that must provide the same protection for public health.

Lead in Drinking Water

If present, elevated levels of lead can cause serious health problems (especially for pregnant women and young children). It is possible that lead levels at your home may be higher than other homes in the community as a result of materials used in your home's plumbing. If you are concerned about lead in your water, you may wish to have your water tested. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. Additional information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline (1-800-426-4791) or at http://www.epa.gov/safewater/lead.

Source Water Assessment and Protection (SWAP)

The Colorado Department of Public Health and Environment may have provided us with a Source Water Assessment Report for our water supply. For general information or to obtain a copy of the report please visit www.colorado.gov/cdphe/ccr. The report is located under "Guidance: Source Water Assessment Reports". Search the table using 151200, COLORADO CITY MD, or by contacting JAMES ECCHER at 719-569-5816. The Source Water Assessment Report provides a screening-level evaluation of potential contamination that \underline{could} occur. It $\underline{does\ not}$ mean that the contamination has or will occur. We can use this information to evaluate the need to improve our current water treatment capabilities and prepare for future contamination threats. This can help us ensure that quality finished water is delivered to your homes. In addition, the source water assessment results provide a starting point for developing a source water protection plan. Potential sources of contamination in our source water area are listed on the next page.

Please contact us to learn more about what you can do to help protect your drinking water sources, any questions about the Drinking Water Quality Report, to learn more about our system, or to attend scheduled public meetings. We want you, our valued customers, to be informed about the services we provide and the quality water we deliver to you every day.

Our Water Sources

Sources (Water Type - Source Type)	Potential Source(s) of Contamination

Terms and Abbreviations

- Maximum Contaminant Level (MCL) The highest level of a contaminant allowed in drinking water.
- Treatment Technique (TT) A required process intended to reduce the level of a contaminant in drinking water.
- **Health-Based** A violation of either a MCL or TT.
- Non-Health-Based A violation that is not a MCL or TT.
- Action Level (AL) The concentration of a contaminant which, if exceeded, triggers treatment and other regulatory requirements.
- Maximum Residual Disinfectant Level (MRDL) The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
- Maximum Contaminant Level Goal (MCLG) The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- Maximum Residual Disinfectant Level Goal (MRDLG) The level of a drinking water disinfectant, below which there
 is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial
 contaminants.
- Violation (No Abbreviation) Failure to meet a Colorado Primary Drinking Water Regulation.
- Formal Enforcement Action (No Abbreviation) Escalated action taken by the State (due to the risk to public health, or number or severity of violations) to bring a non-compliant water system back into compliance.

Detected Contaminants

COLORADO CITY MD routinely monitors for contaminants in your drinking water according to Federal and State laws. The following table(s) show all detections found in the period of January 1 to December 31, 2018 unless otherwise noted. The State of Colorado requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year, or the system is not considered vulnerable to this type of contamination. Therefore, some of our data, though representative, may be more than one year old. Violations and Formal Enforcement Actions, if any, are reported in the next section of this report.

Note: Only detected contaminants sampled within the last 5 years appear in this report. If no tables appear in this section, then no contaminants were detected in the last round of monitoring.

Disinfectants Sampled in the Distribution System

Subject: Monthly Sewer Fee, CCMD Account #243.01

Dear Mr. Eccher,

I am writing to request a \$78.30 refund or credit of excess sewer charges for Jan — May 2019 on my subject residential account. My monthly Sewer Fee is \$40.64. The basis for variance is Avg Winter Consumption of 4,000 gal/month *applied* usage vs. 1,704 gal/month *actual* usage. I think the correct monthly Sewer Fee in 2019 for my account is \$24.98 (or \$15.66/month less than as-billed) as follows.

2019 AWC (3-Month Avg Usage for Sewer Fee as-of 1/31/2019) Calculation:

<u>Month</u>	<u>Usage</u>	<u>Date</u>
Nov	2,000 gal	11/30/18
Dec	1,510 gal	12/27/18
Jan	1,600 gal	01/30/19
Subtotal	5,110 gal	
	<u>÷ 3 mo</u>	
Total	= 1,704 gal/month	

AWC rate <u>x \$0.00682/gal</u>

2019 Sewer Fee:

Usage Charge = \$11.62/month
Base Charge 13.36/month
Total \$24.98/month

Thank you for prompt approval of a \$78.30 refund, or one-time credit to my account; and for reducing my subsequent monthly Sewer Fee from \$40.64 to \$24.98/month for Jun – Dec 2019.

Sincerely,

Calvin A Hamler

As you know, from my meeting with you, I want to build a home on a lot in unit 23 in Colorado City that is not on a maintained road. You will also remember my mentioning that when I inquired about obtaining a building permit I was told to check with you at the Public Works-Road and Bridges Dept. In a phone conversation, before our meeting, you told me I would have to build a road from the existing maintained road over 3 tenths of a mile to my building site, that would meet county road standards which would cost \$34/ per linear foot, plus any drainage study costs. The cost for this would be over \$60,000.00. Since this would be prohibitive for me, and for most other people, we looked at other options. You stated that a policy that has been used that allowed people with cul-de-sac property to build a home, without building a road, consisted of having the landowner sign a waiver and designate his road as a private road, thereby relieving the county of maintenance obligations, but you didn't think this policy would be available to me because my road is presently designated as a thru road. The road in question is called Geronimo Road. A road with no homes, no one lives on this road, and no one uses it as a thru road and never have. A few people use a short portion at the extreme east end of Geronimo Road to access their road. Most of this road, over a mile, is not used, and hasn't been since the initial development of Colorado City, more than 37 years ago. My building site is at the extreme west end of Geronimo Road.

Requiring the land owner to build up these type roads will make these roads become "ghost roads" never to be used, making adjoining lots non-useable and of no value, yet other county departments appraise their value and require that taxes be paid annually. The people who bought lots along these roads had no knowledge that the developer would declare bankruptcy and never finish their infrastructure, and that they would become victims of a development that a past local government should have never allowed to be developed in the un-finished way that it was. We need to provide a way for these people to recover from being taken advantage of by having a policy that would allow them to reasonably be able to benefit a little from owning their land, rather than leaving it totally non-useable. I don't believe a developer is going to come along and save all these land owners. They haven't for all these years and its my understanding that more recently some have investigated the possibility and chose very emphatically not to get involved.

Since we all believe that governments, among other things, are for protecting the rights of the people to benefit from the ownership of their lands, it appears a new policy, or the new use of an existing policy needs to be available to let people use the land they pay taxes on.

I believe, an owner of a lot on this type of road should be allowed to have his road changed from a thru road to a private road, and if necessary place a 'no thru road' sign at the appropriate places, and a barricade located near the midway of its length. The owner would sign the customary waiver, for it being a private road, thus relieving the county of any maintenance obligations.

This allows the land owners to benefit a little with the land they own, rather than paying taxes on land they can never use or benefit from, which is what it boils down to today.

Because there is no sewer service available, in order to install a septic system he would have to acquire at least one more adjacent lot to satisfy the square footage requirements for his leech field. Also over one third of this road is not served with a water line and therefore will never be a building site. And finally, getting electric power service is a very big expense.

These land owners need a break, but more importantly they need to be treated fairly so they can benefit as much as possible from owning a small piece of land in Pueblo County. I hope you agree, and can provide a satisfactory plan so the road, as it exists, will not prevent some of these lots from being used and enjoyed as a home site.

Respectfully,

R. Glen Shaffer P.O. Box 19271
